Venus Making Trouble for Mars; Turmoil in the War Department About Overcoats at West Point

Maidens Left Chilly on Parade Grow Angry.

Mrs. Ayres Champions Action of the Cadets.

Criticises Col. Howze, Herice All the Trouble.

Had Mars, suddenly perceiving that Venus was shivering in a chill breeze, wrapped his cloak around her, probably no more would have been heard or thought of the incident.

But the gallantry of a number of West Point cadets on the parade grounds on Easter Sunday has not been so readily dismissed. The cadets, seeing that the cold-and it really was cold-caused discomfort to their sweethearts, sisters and mothers, impulsively gave up their overcoats. The women, for greater comfort, donned them as they would their own coats, and buttoned the collars

Lieut, Col. Robert L. Howze, the commandant found time, during his scrutiny of the dress parade, to send a sergeant to the women, present his compliments, and request that, inasmuch as they were parties to a breach of paragraph 223, regulations of the United States Military Academy, they would oblige greatly by relinquishing the over-This paragraph requires that any part of the regulation clothing.

Trouble A-Plenty.

Straightaway there was trouble. The cadets, many with boyish natures untempered by military ambitions, did not like the action of the commander. Needless to say, the women were in a like frame of mind, only more so, for it was a cold day, and the wind had lost none of its biting nature while whistling through the Catskills on its journey

But there was one charming girl who set the rules and regulations at defiance, and would have utterly routed them but for the courteous tact of an old officer, who interfered in the nik of time. Oliver, one of the tactical officers under When the sergeant approached her- Colonel Howze. What she said at that probably wishing himself on duty in the toughest quarter of the Bowery-and said, "You are ordered to take that coat off." she replied promptly, "I decline to obey that order." The imagination reels at the thought of what might have hap-pened, but in order to avoid a situation that might have been catastrophic, the officer in question stepped up and saved the day by asking, "Won't you do that for me?" Surrender was immediate.

And now there is much trouble, for, in stead of a number of women being "in it," the affair has narrowed down to the old explanation-"There's a woman

Instead of ending with the order of the commander, the incident has been expanded into a pretentious occurrence The War Department at last took it up and is now investigating complaints against an officer's wife-Mrs. Elizabeth Fairfax Ayres. This is the first time the department has made a woman the subject of an investigation.

She Criticised Howze.

While no formal charges have been preferred against Mrs. Ayres, the investigation has to do with criticism made by her upon Col. Robert Lee Howze. There is a technicality in the case which may have an important bearing upon the decision.

Under the army regulations, an officer is responsible to a certain degree for his wife's actions. The woman cannot be held responsible in matters such as this. Mrs. Ayres has lived at the reservation at West Point by privilege. Secretary Taft has not decided what will be done in the matter, but awaits the report of Col. Stephen C. Mills, of the Inspector General's Department, to whom the unenvied task of investigating the case was assigned.

Mrs. Ayres is the wife of Lieut. Col. Charles G. Ayres, of the Eighth Cavalry a gallant soldier, who won the everlasting admiration of President Roose velt at San Juan. Had it not been for Colonel Ayres' coolness and precision his command would have mowed down the Rough Riders, through a misunder-

Mr. Ayres Kept Busy.

When Colonel Howze issued the order that the overcoats must be taken off by women, there were some protests. Many thought that under the circum-stances he might have been more lenient. time induced Captain Oliver to make an official complaint to his superior. As a consequence of this, Captain Oliver re duced his complaint to writing and the letter containing Mrs. -Ayres' remarks was sent to Washington.

Immediately following the overcoat episode, a letter, sharp in criticism, and attributed simply to an officer's wife, was published in a New York newspaper. When it came to the eye of Colonel Howzehe strongly suspected Mrs. Ayres of having been the author, and

her with having inspired it. In the meantime, Mrs. Ayres had been busy.
